EXPERIENCE

Feb 2022 - Present

- **SDE 2 | Photon Interactive | July 2025 - Current**
  - Designed and maintained Shopify Plus storefront architecture for enterprise AMS clients.
  - Built reusable Liquid sections, snippets, and merchant-configurable components.
  - Integrated App Proxy, Theme App Extensions, and Storefront API features for scalable storefront functionality.
  - Resolved production issues involving checkout, cart flows, and third-party integrations.
  - Improved storefront performance through Core Web Vitals optimization and deferred asset loading.

- **SDE | ZiggleTech. Inc | Feb 2022 - June 2025**
  - Built and maintained multiple Shopify and Shopify Plus storefronts using Liquid, React, JavaScript, HTML5, and CSS3.
  - Developed reusable custom sections, templates, snippets, and scalable theme architecture across multiple stores.
  - Worked with Metafields, Metaobjects, and dynamic product content to improve merchant flexibility.
  - Customized product pages, collection pages, cart experiences, and responsive UI based on Figma designs.

PROJECTS

- **VITAPOD**
  - Developed a Shopify Plus storefront with reusable theme architecture.
  - Improved responsive performance across desktop and mobile.
  - Built merchant-editable components for easier content management.

- **DRIPGYM**
  - Built the store from scratch using Online Store 2.0.
  - Integrated Easy Appointment Booking.
  - Customized Liquid components to support business-specific booking workflows.

- **Additional Shopify Experience:**
  - Delivered Shopify and Shopify Plus solutions involving theme architecture, custom sections, snippets, Theme App Extensions, App Proxy integrations, Metaobjects, Metafields, Storefront API integrations, GraphQL, performance optimization, production support, accessibility improvements, and third-party app integrations.
